

Happy AdvantEDGE Customers

Since the launch of EDGE's AdvantEDGE Markets & Events Software at NABMA's 2022 AGM & Conference, EDGE have had a busy 2023 of on-boarding new clients and working in collaboration with a wide range of councils' markets & events staff to improve and further develop their paperless management system.

Gone are the times of staff losing valuable time, by using an out of date or DIY software to administer their markets. AdvantEDGE Markets & Events is cloud-based, paperless and enables full control & management of multiple markets from anywhere with an internet connection.

As EDGE continue to be NABMA's sponsor and the recommended solution, approved by the Everything ICT procurement framework, it's no surprise that so many councils have decided to update their working practices and switch to EDGE's time-saving solution.

"Having decided to invest in new software to manage our market, we talked to a number of companies and took the decision that the EDGE software was the best option for us.

The software is fantastic, it is simple to use and has made the day-to-day management of our market so much more efficient. The customer service and support that we have had, and continue to receive from Chris and his team is second to none, Chris has been more than accommodating with all the requests that we have made and has tailored the system to specifically suit our needs.

We look forward to continuing to work with the EDGE team on the future development of the market and event side of the software."

Debbie Carlisle

Business Transformation Manager
Make It York – Markets & Events

AdvantEDGE Markets & Events customers benefit from a comprehensive software package which includes EDDA, their online trader portal, digital vendor agreements through their partnership with DocuSign and seamless payment integration with automatic payment tracking.

See page 3 for product details and page 2 for further details on how you can cut out the lengthy tendering process and make a direct award to Everything ICT, along with document links for procurement officers.

With no capital outlay & an annual subscription cost determined by the number of stall bookings and the number of user accounts, AdvantEDGE Markets & Events is affordable for all council and market sizes. See page 4 for details on EDGE's price bands.

"Milton Keynes Development Partnership (MKDP) previously let Milton Keynes Market to a single market operator. At the end of the lease, MKDP took the opportunity, in collaboration with our service provider Milton Keynes City Council to bring operational management of the Market in house. Our key aims are to ensure MKDP have flexibility and control, can ensure health and safety compliance and can curate an offer that enhances customer experience whilst supporting the existing Market community to flourish.

To achieve this, it was important to ensure we have the right database system in place to manage stall holder records and compliance, issue licences and collect stall holder fees. Under the previous operator, this was a paper and cash only model, but using AdvantEDGE Markets we were successfully able to introduce a cashless and paper free model on day one. The stall holders were quick to adopt the new way of working, and we now have a 100% collection rate."

Lisa Noall, Milton Keynes Development Partnership

Procurement

No More Need for Tenders

CARBON NEUTRAL SOFTWARE

EDGE are delighted to be part of the Everything ICT procurement framework, supplying software and IT services to the public sector.

The Everything ICT framework is focused towards providing public sector organisations with innovative, future proofed solutions which synergises perfectly with the core values of EDGE.

Everything ICT is OJEU pre-tendered which removes the need for lengthy competitions and instead provides a fully compliant route to make a direct award to Everything ICT for our Markets & Events solution.

The framework specialises in cloud products and related services, and has spent 5 years developing and refining a service that allows public sector organisations to save time and money on tendering.

EDGE underwent a rigorous application and vetting process, modelled on public procurement best practice which covered all the usual questions concerning mandatory and discretionary exclusion from public contracts. Our application was reviewed independently by a committee of Everything ICT Directors and the CEO of E2BN (the framework contracting authority).

Having successfully passed the application, EDGE are bound to supply in accordance with the full terms and conditions of the Everything ICT framework.

As EDGE is now the framework's recommended partner for local government, markets and events software, we are committed to providing cutting edge solutions in order to push innovation and maintain our approved status on the framework.

Full details can be downloaded from
www.edgeltsystems.com/procurement-framework

Please do not hesitate to contact us to arrange an online demonstration and a proposal to migrate you to AdvantEDGE Markets & Events with the security of the Everything ICT framework.

Markets & Events

All prices correct as of 1st January 2024, and exclude VAT.

* Markets and Events Enterprise

AdvantEDGE is **Software as a Service (SaaS)**. The software and data are held in the cloud on UK servers. Access is available from Windows, Apple or Android devices with an internet connection. You are always running on the latest version of the software and EDGE automatically backs up your data **every hour** at no extra cost to www.datto.com. **Support** is included in the price, and is available by phone, email and online helpdesk through which software enhancements can also be requested.

No Capital Expenditure. Payment for the use of **AdvantEDGE** is via a leased term contract; monthly, 1, 3 or 5 years. Pricing per concurrent user includes unlimited **AdvantEDGE** user logons. Each concurrent user account enables one AdvantEDGE user to connect at a time, and multi factor authentication (MFA) is included. Additional concurrent users are available, and can use all AdvantEDGE modules subscribed to. **Escrow** is included to provide service for a 60 day period and the ability to download data with a 12 month software licence. Other escrow options available.

We offer online training by the hour, which is particularly useful for getting you started, for new members of staff and refresher training.
