Procurement

No More Need for Tenders   ✓ APPROVED

CARBON NEUTRAL SOFTWARE

EDGE are delighted to be part of the Everything ICT procurement framework, supplying software and IT services to the public sector.

The Everything ICT framework is focused towards providing public sector organisations with innovative, future proofed solutions which synergises perfectly with the core values of EDGE.

Everything ICT is OJEU pre-tendered which removes the need for lengthy competitions and instead provides a fully compliant route to make a direct award to Everything ICT for our software solutions.

The framework specialises in cloud products and related services, and has spent 5 years developing and refining a service that allows public sector organisations to save time and money on tendering.

EDGE underwent a rigorous application and vetting process, modelled on public procurement best practice which covered all the usual questions concerning mandatory and discretionary exclusion from public contracts. Our application was reviewed independently by a committee of Everything ICT Directors and the CEO of E2BN (the framework contracting authority).

Having successfully passed the application, EDGE are bound to supply in accordance with the full terms and conditions of the Everything ICT framework.

As EDGE is now the framework's recommended partner for local government, cemetery and crematoria software, we are committed to providing cutting edge solutions in order to push innovation and maintain our approved status on the framework.

All prices correct as of 1st January 2025, and exclude VAT.

This image showcases HeritEDGE Mapping, an add-on feature to our Epitaph software.

Epitaph is **Software as a Service (SaaS)**. The software and data are held in the cloud on UK servers. Access is available from Windows, Apple or Android devices with an internet connection. You are always running on the latest version of the software and EDGE automatically backs up your data **every hour** at no extra cost to www.datto.com. **Support** is included in the price, and is available by phone, email and online helpdesk through which software enhancements can also be requested.

No Capital Expenditure. Payment for the use of **Epitaph** is via a leased term contract; monthly, 1, 3 or 5 years. Pricing per concurrent user includes unlimited Epitaph user logons. Each concurrent user account enables one Epitaph user to connect at a time, and multi factor authentication (MFA) is included. Additional, concurrent users are available, pricing is on application. **Escrow** is included to provide service for a 60 day period and the ability to download data with a 12 month software licence. Other escrow options available.

We offer online training by the hour, which is particularly useful for getting you started, for new members of staff and refresher training.
