

EPITAPH

Take your Cemetery and Crematorium administration to the **next level**

Streamline your cemetery and crematorium administration with our Epitaph suite which provides secure, cloud-based and paperless management with online forms, online payments, digital mapping and memorial inspections.

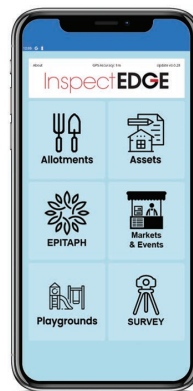

Customer Success

“Having recently led a team through a major change programme from a legacy solution to EDGE software, I would have no hesitation in suggesting you consider them for your needs. I have done numerous other change programmes over the years and despite everyone’s best efforts and any amount of planning they inevitably throw up some hurdle or other, and this one was no different. However, all these have been handled professionally, quickly and with patience (when we have been needy). We did encounter one significant unplanned event when our outgoing provider left us in a challenging position however the team at EDGE had it covered and within hours all was operational again and migration continued without drama.” **Simon Frosdick, Leeds City Council, Former Head of Bereavement Services**

New for 2026

- **Pay Now** link on invoices, funeral director portal and text messages to public which are powered by low cost and reliable GoCardless instant bank payments
- Automated integration with corporate finance
- Online application forms to save staff time inputting details from forms
- **Online Cremation 1 Form** with digital signature by applicant
- **Music provider integration** to prevent the funeral director’s from changing the date and time with music providers and forgetting to confirm the change with the crematorium, and our integration now automatically updates the crematorium with the products provided by the music provider so that the crematorium can invoice the funeral director appropriately
- **Survey** feature on InspectEDGE memorial inspection app combined with 2cm GPS accurate tablet enables digital maps to be created and corrected by you

InspectEDGE

- Memorial inspections app supplied on ruggedised tablet
- No internet required to complete inspections
- Fully compliant with BS8415:2018 and ICCM guidance
- Record full inspection details with photos in app
- Record and locate memorial locations

Procurement

No More Need for Tenders

CARBON NEUTRAL SOFTWARE SINCE 2021

EDGE are delighted to be part of the Everything ICT procurement framework, supplying software and IT services to the public sector.

The Everything ICT framework is focused towards providing public sector organisations with innovative, future proofed solutions which synergises perfectly with the core values of EDGE.

Everything ICT is OJEU pre-tendered which removes the need for lengthy competitions and instead provides a fully compliant route to make a direct award to Everything ICT for our software solutions.

The framework specialises in cloud products and related services, and has spent 5 years developing and refining a service that allows public sector organisations to save time and money on tendering.

EDGE underwent a rigorous application and vetting process, modelled on public procurement best practice which covered all the usual questions concerning mandatory and discretionary exclusion from public contracts. Our application was reviewed independently by a committee of Everything ICT Directors and the CEO of E2BN (the framework contracting authority).

Having successfully passed the application, EDGE are bound to supply in accordance with the full terms and conditions of the Everything ICT framework.

As EDGE is now the framework's recommended partner for local government, cemetery and crematoria software, we are committed to providing cutting edge solutions in order to push innovation and maintain our approved status on the framework.

Full details can be downloaded from **www.edgeITsystems.com/procurement-framework**

Please do not hesitate to contact us to arrange an online demonstration and a proposal to migrate you to Epitaph with the security of the Everything ICT framework.

EPITAPH Enterprise is the ultimate software package for the management of cemeteries and crematoria.

CARBON NEUTRAL SOFTWARE SINCE 2021

Providing comprehensive control of bookings, sales, cremations, burials, memorials, documentation, reporting, and finance. Epitaph replaces all manual registers and securely maintains every statutory record.

This image showcases HeritEDGE Mapping, an add-on feature to our Epataph software.

Epataph is **Software as a Service (SaaS)**. The software and data are held in the cloud on UK servers. Access is available from Windows, Apple or Android devices with an internet connection. You are always running on the latest version of the software and a **full disaster recovery backup is taken every hour** at no extra cost and facilitated by www.datto.com at a second location in the UK. **Support** is included in the price, and is available by phone, email and online helpdesk through which software enhancements can also be requested.

No Capital Expenditure. Payment for the use of **Epataph** is via a leased term contract; monthly, 1, 3 or 5 years. Pricing per concurrent user includes unlimited Epataph user logons. Each concurrent user account enables one Epataph user to connect at a time, and multi factor authentication (MFA) is included. Additional, concurrent users are available, pricing is on application. **Software Escrow** is included from www.ses-escrow.co.uk which provides the service on www.datto.com for a 60 day period with the ability to download data with a 12 month software licence. Escrow options are available for an indefinite software licence and the source code.

Easy Transition from your existing software with our team of experienced bereavement service practitioners and IT professionals who provide a smooth and fully managed transition to Epataph.
